4 Person Spa

Platinum Package

4 Pumps
65 Jets
Air Bubbling System

ThermoSpas®

Luxurious Hot Tubs Made AFFordable.

Lexington Platinum

The Lexington is a three-person portable spa modest in size (200 gal.), but offering four unique seating areas. The elevated bench seat is the perfect place for morning coffee or to read a favorite novel. It is also next to the ice bucket and shelf area to make drinks, snacks, or a towel very convenient. The double-wide, reversible lounge offers three unique seating options all with built-in pillows for added comfort. Couples may lie side by side to recapture romance or stretch out face to face for relaxing conversation. The single side of this unique lounge may be ordered to feature a wide array of jets along with ThermoSpas Throttle Control Valve (pat. pend.) to allow water pressure adjustment for a perfect massage. To meditate in simple solitude, slip into the deep corner seat that provides deep soaking.

Included on all Designer Spas

ThermoFiltration

An independent 40 GPM pump filters the water up to 144 times per day, 24/7 providing crystal clear water.

ThermoBond Acrylic Shell

Continuous Cast Acrylic Shell with ThermoSpas proprietary ThermoBond Laminate includes vinyl ester resin and zero filler.

Quality Components

Includes a titanium heater, Viton seal water pumps (w/shut off valves), and ThermoSpas 700 Series Control Panel.

Designer Cabinetry

Quality built frames with 2x6 supports, removable/reversible panels and elegant top rails in a choice of 3 colors.

ThermoInsulation/Soundproofing

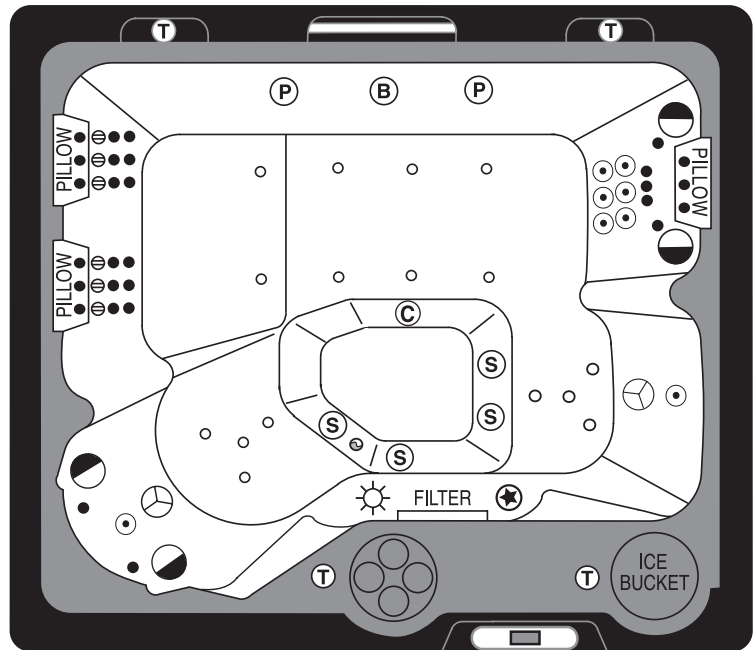

Co-generation heat is developed with thick, 1.5" insulated panels on all walls and an insulating / soundproof blanket covering the walls and base.

Total Control Therapy

Ability to independently control certain seating areas in the spa using separate pumps, and ThermoSpas patented air controls.

Air Bubbling System

Unique bubbling system includes automatic clean out, warm air induction, soundproofing and the ability to control the intensity. Not available on Silver Package models.
